

Planning renovations or upgrades to your home in the near future? Outfit your home with the right renos that make it more energy efficient, and you could be eligible for some big time savings from Union Gas!

### How can energy-smart upgrades help you save?

There are 3 simple ways that outfitting your home with energy saving upgrades can help you save:

1. **Save money now**  
Improve the energy efficiency of your home and get up to \$2,500 of your renovation costs back.
2. **Save money later**  
Increased energy efficiency will decrease your energy bill by up to 20% every year.
3. **Increase the value of your home**  
An energy-efficient home is more attractive to future buyers

### How can I get started?

Looking to make the most of the available savings? Here's how you can do it:

1. Call **Baerg's Home Performance Solutions (BHPS)** at **705-648-0296** to book an assessment before starting your renovations.
2. Complete your pre-renovation energy assessment.
3. Review your assessment and renovation options with your energy advisor.
4. Complete at least two of the eligible renovations with a reputable contractor\*.
5. Call your advisor to complete your post-renovation assessment.

BHPS will collect and submit all the necessary paperwork to Union Gas. You will get your rebate cheque within 90 business days of submission.

\*We recommend that you get quotes from at least three reputable contractors.

## How to qualify:

Does your next project qualify for a Home Reno Rebate from Union Gas? Find out here.

### You need to:

- Have an active Union Gas account.
- Have a natural gas furnace/boiler.
- Own a detached, semi-detached, row town house, or mobile home.
- Live in the Union Gas franchise area.

### And you must:

- Do an energy assessment both before and after your renovation.
- Complete at least two eligible renovations.

Maximum \$2,500 rebate includes up to \$500 for both energy assessments. You pay the HST on the cost of the assessments.

## What are the eligible Insulation/Sealing Rebates?

### Basement Insulation <sup>1, 2, 3</sup>

\$1000	For adding at least R23 to 100% of basement
\$500	For adding at least R12 to 100% of basement
\$800	For adding at least R23 to 100% of crawl space wall
\$400	For adding at least R10 to 100% of crawl space wall
\$450	For adding at least R24 to 100% of floor above crawl space

### Exterior Wall Insulation <sup>1</sup>

\$1,500	Add at least R9 for 100% of building to achieve a minimum of R12.
\$1,000	Add at least R3.8 for 100% of building to achieve a minimum of R12.

## Attic Insulation <sup>4</sup>

\$500	For increasing attic insulation to at least R50 from R12 or less.
\$250	For increasing attic insulation to at least R50 from R13 to R25.
\$500	For increasing cathedral/flat roof insulation by at least R14.

## Air Sealing

\$150	Achieve 10% or more above base target
\$100	Achieve base target

(1) The rebate is prorated based on the percentage of wall area insulated and does not include walls between individual units. For a semi-detached, rebates are 75 percent of the amounts shown.

(2) When both a basement and crawl space are present, all applicable grants are pro-rated to a maximum of \$1,000 based on the total wall area.

(3) Can qualify for either crawl space wall or floor above crawl space rebate.

(4) 100% ceiling coverage required upon completion. When the roof consists of more than one type (i.e., attic, cathedral ceiling and flat roof), rebates are pro-rated based on the ceiling area and roof type. The rebate for any combination of attic, cathedral ceiling and flat roof cannot exceed \$500.

## Are there any eligible ENERGY STAR® Rebates?

Yes. Renovations and upgrades that make your home more energy-efficient are:

### Furnace/Boiler

\$500	For replacing 94% AFUE or less furnace with 95% or higher condensing natural gas furnace or replacing 89% AFUE or less boiler with a 90% AFUE or higher ENERGY STAR® condensing gas boiler.
-------	---

### Water Heater <sup>1</sup>

\$200	For replacing water heater with ENERGY STAR natural gas water heater with EF of 0.82 or higher.
-------	---

### Window/Door/Skylight <sup>2</sup>

\$40	For each window, door or skylight replaced with ENERGY STAR-qualified model.
------	--

(1) Maximum one water heater rebate per home.

(2) \$40 rebate per rough opening. Bay window considered one rough opening.
